## Skills

### Programming

Over 5000 lines  
Go • Python • C++ • Java  
1000 - 5000 lines  
R • C • Scala • ~~TeX~~  
Less than 1000 lines  
HTML • Javascript • MatLab •  
Shell • Processing

### Cloud Computing

Familiar  
Docker • Kubernetes  
Knowledge  
Swarm • Moby • Linuxkit •  
HyperContainers •  
ClearContainers • Xen • KVM •  
Unikernel

### DevOps

Familiar  
Micro Services • Jenkins •  
Travis CI

## Experience

### Google Summer of Code Student Participant

2017.05 - 2017.09 | Remote

- 1318 out of 20651 applicants(**6%**) chosen to be a participant
- Implemented R language mode for Processing
- Cooperated with the community to support Processing libraries and R packages
- **Processing.R** has **70 stars** in GitHub, which becomes one of the most popular GSoC projects

### Morgan Stanley CIP Project Intern

2017.02-2017.08 | Shanghai

- Optimized the scheduler in treadmill, which is the open source container management system
- Implemented scheduling logics similar to Kubernetes

### TouchPal Data Engineer(Intern)

2015.09-2015.09 | Shanghai

- Migrated the web crawler code to the new architecture

### Alipay Java R&D Engineer(Intern) | Hangzhou

2015.07-2015.09

- Worked in the international group
- Implemented some business logic and some logic about operation platform

## Projects and Papers

### Cyclone Maintainer

2016.11

- Cloud native continuous integration platform built for container workflow
- Joint Research with caicloud, got **440 stars** in GitHub
- Implemented YAML parser and Docker runtime

### Scrala Owner

2015.12

- Spider framework inspired by scrapy
- Has **70 stars** in GitHub

### Killy Owner

2017.10

- Implemented a Minecraft server to play TiDB in Minecraft
- Won the **second & special prize** in Go Hack 17

## Open Source Contributions

moby/moby  
opencontainers/runc  
pingcap/tidb  
coala/coala-vs-code  
weijianwen/SJTUThesis

Implemented docker service ps -q option  
Fixed an upstream bug for moby/moby#27484  
Imported code coverage test; Implemented truncate function  
Visual Studio Code plugin maintainer  
Add English abstract for the template;  
Replace copyrighted fonts

## Awards

2017.10	Scholarship	Intel
2016.11	1st Prize	7th China Students Service Outsourcing Innovation & Entrepreneurship Competition
2016.09	2nd Prize	13th National Post-Graduate Mathematic Contest in Modeling
