Talks

Processing.R @ The 10th
China R Conference

Skills

Programming

Over 5000 lines
Go • Python • C++ • Java
1000 - 5000 lines
R • C • Scala • \LaTeX

Cloud Computing

Familiar
Docker • Kubernetes

DevOps

Familiar
Micro Services • Jenkins •
Travis CI

Experience

Google Summer of Code Student Participant

2017.05 - 2017.09 | Remote

- 1318 out of 20651 applicants(6%) chosen to be a participant
- Implemented R language mode for Processing
- Cooperated with the community to support Processing libraries and R packages
- **Processing.R** has **70 stars** in GitHub, which becomes one of the most popular GSoC projects

Morgan Stanley CIP Project Intern

2017.02-2017.08 | Shanghai

- Optimized the scheduler in treadmill, which is the open source container management system
- Implemented scheduling logics similar to Kubernetes

TouchPal Data Engineer(Intern)

2015.09-2015.09 | Shanghai

- Migrated the web crawler code to the new architecture

Alipay Java R&D Engineer(Intern) | Hangzhou

2015.07-2015.09

- Worked in the international group
- Implemented some business logic and some logic about operation platform

Projects and Papers

kubeflow Collaborator

2017.12

- Run ML stack on Kubernetes, **2400 stars** in GitHub
- Refactor and maintain tensorflow/k8s

Cyclone Maintainer

2016.11

- Cloud native continuous integration platform built for container workflow
- Joint Research with caicloud, got **440 stars** in GitHub
- Implemented YAML parser and Docker runtime

Scralla Owner

2015.12

- Spider framework inspired by scrapy
- Has **70 stars** in GitHub

Open Source Contributions

moby/moby
opencontainers/runc
pingcap/tidb
prism-river/killy
coala/coala-vs-code
sjtug/SJTUThesis

Implemented docker service ps -q option
Fixed an upstream bug for moby/moby#27484
Imported code coverage test; Implemented truncate function
Maintainer, Play TiDB in Minecraft
Visual Studio Code plugin maintainer
Maintainer, SJTU thesis template

Awards

2017.10	2nd Prize	Go Hack 2017
2017.10	PingCAP Award	Go Hack 2017
2017.10	Scholarship	Intel
2016.11	1st Prize	7th China Students Service Outsourcing Innovation & Entrepreneurship Competition
2016.09	2nd Prize	13th National Post-Graduate Mathematic Contest in Modeling
2015.03	2nd Prize	Interdisciplinary Contest In Modeling
2014.11	1st Prize	National Mathematical Contest in Modeling
2014.07	2nd Prize	DaZhongDianPing Geek Challenge
