# **Talks**

Processing.R @ The 10th China R Conference

# Skills

### **Programming**

Over 5000 lines Go • Python • C++ • Java 1000 - 5000 lines  $R \cdot C \cdot Scala \cdot LT_{FX}$ 

#### **Cloud Computing**

Familiar

Docker • Kubernetes

#### **DevOps**

Familiar Micro Services • Jenkins • Travis CI

# **Experience**

# Google Summer of Code Student Participant

2017.05 - 2017.09 | Remote

- 1318 out of 20651 applicants(6%) chosen to be a participant
- Implemented R language mode for Processing
- · Cooperated with the community to support Processing libraries and R packages
- Processing.R has 70 stars in GitHub, which becomes one of the most popular GSoC projects

#### Morgan Stanley CIP Project Intern

- Optimized the scheduler in treadmill, which is the open source container management system
- Implemented scheduling logics similar to Kubernetes

#### **TouchPal** Data Engineer(Intern)

2015.09-2015.09 | Shanghai

· Migrated the web crawler code to the new architecture

#### **Alipay** Java R&D Engineer(Intern) | Hangzhou

2015.07-2015.09

- Worked in the international group
- Implemented some business logic and some logic about operation platform

# **Projects and Papers**

#### kubeflow Collaborator

2017.12

- Run ML stack on Kubernetes, 2400 stars in GitHub
- Refactor and maintain tensorflow/k8s

#### **Cyclone** Maintainer

2016.11

- · Cloud native continuous integration platform built for container workflow
- · Joint Research with caicloud, got 440 stars in GitHub
- · Implemented YAML parser and Docker runtime

#### **Scrala** Owner

2015.12

- · Spider framework inspired by scrapy
- · Has 70 stars in GitHub

# **Open Source Contributions**

moby/moby Implemented docker service ps -q option opencontainers/runc Fixed an upstream bug for moby/moby#27484 pingcap/tidb Imported code coverage test; Implemented truncate function

prism-river/killy Maintainer, Play TiDB in Minecraft Visual Studio Code plugin maintainer coala/coala-vs-code situg/SITUThesis Maintainer, SJTU thesis template

# Awards

2017.10	2nd Prize	Go Hack 2017
2017.10	PingCAP Award	Go Hack 2017
2017.10	Scholarship	Intel
2016.11	1st Prize	7th China Students Service
		Outsourcing Innovation & Entrepreneurship Competition
2016.09	2nd Prize	13th National Post-Graduate Mathematic Contest in Modeling
2015.03	2nd Prize	Interdisciplinary Contest In Modeling
2014.11	1st Prize	National Mathematical Contest in Modeling
2014.07	2nd Prize	DaZhongDianPing Geek Challenge
